

## What others are saying about Sophie and the program

*"Claire regained her confidence and a healthy sense of who she was and wanted to be. We were beginning to see a "rebirth" if you like of the girl we once knew. Sophie offered Claire opportunities to develop her leadership and communication skills and all the responsibilities that came with it. Sophie's impact on Claire's life is immeasurable and priceless. Claire still talks of her experiences of that year with such vigorous enthusiasm. It was truly a turning point in her life! Thank you so much Sophie!"*
